SERVICES LE TIGRE WEBDESIGN HOLLAND

Standard in all our web hosting packages:

1.Backup-/recovery service:

- every day a backup is made, overwriting the oldest one
- Backups are stored on a remote server (other server than host server).
- Webdesign Holland disclaims liability for possible textual and visual errors in CMS websites when restoring a backup.

2.eMail Security packet (a paid premium server plugin):

- Anti-virus scanning of emails
- Anti-virus quarantine management
- Daily updates of the anti-virus database
- Automatic learning of spam messages via actions in the e-mail client (self-marking as spam/non-spam in the local mail application)
- Daily updates of the anti-spam database - Detailed statistical overview of e-mail traffic (spam, viruses)
- DNS blacklist management

3.ImunifyAV Security packet (a paid premium server plugin)

- an intelligent antivirus and security monitoring tool for websites with one-click automatic malware cleanup, domain reputation monitoring and blacklist status check
- recognises dangerous behaviour in real-time and cleans it up immediately as soon as it is detected.
- Free caching (nginx) enabled for PHP dBase optimisation and default caching via: 'gzip_proxied any;'

Technical maintenance package €140.- per year (only applicable to Wordpress websites), **including:**

1. Update service for Wordpress websites with staging website on other web server.

- Websites are automatically updated via a special plugin.
- Updates are periodically checked for conflicts and, if necessary, not executed and/or restored. Because Wordpress websites need to be updated regularly (including themes and plugins), there is a chance of conflicts causing the website to stop working. If this is the case, this is resolved on an external server via the staging website!

2. WP Rocket + Imagify: a premium plugin for WordPress that helps speed up your website

3. AISEO Pro seo plugin to optimise the website for Google

4. Simple text customisation

LE TIGRE

WEBDESIGN - HOLLAND

Backup/recovery system at external hosting:

- If a hosting party other than Webdesign Holland is used, costs will be charged for the backup/recovery system.
- Backups cost €140 euros per year with €140 euros per recovery of the website

Helpdesk function:

- If the site is created by and hosted at Webdesign Holland, use of the helpdesk function is free of charge on the basis of simple support.
- For extensive support and/or adjustments to the site, the rate of €75 per hour applies.

GENERAL TERMS AND CONDITIONS LE TIGRE WEBDESIGN HOLLAND

All prices are excluding VAT. Invoicing of all the mentioned services takes place every year at the beginning of January. Invoices must be paid within 14 days after date!

If any of our services are purchased in the course of the year, the entire annual amount must be paid. No refund will be made in case of early termination.

If after agreement, both orally and in writing by whatever circumstances, the services of the agreed on work will be cancelled, at least 50% of the agreed amount will be charged.

Source files are and remain the property of Webdesign Holland at all times.

For all our services, cancellations must be made in writing and/or by e-mail before 1 December of the current year; if not, the agreements are automatically renewed per year!

If domain names, services and/or work are not paid for or not paid for on time, all rights of the client to the domain names expire and ownership of the domain names is automatically assigned to Le Tigre Webdesign Holland.
